

## **TIRE REINFORCING ARRANGEMENT**

### **ABSTRACT OF THE DISCLOSURE**

A tire reinforcing arrangement includes an outer tire having  
5 two hooked flanges at two sides, two annular spare tires bilaterally  
set inside the outer tire, each annular spare tire being formed of a  
plurality of spare tire blocks that are fastened to one another by  
links and screw bolts, each spare tire block having two mounting  
through holes, a top locating groove adapted to receive the hooked  
10 flanges of the outer tire, an embossed bottom wall, and two  
projecting portions diagonally disposed at two ends, and stretchers  
respectively stopped between the annular spare tires.
